The shifting values of next generation investors are driving a greater need for a new kind of wealth management. They want more and better philanthropy advice and guidance from their advisors – but the professional advice community receives low ratings for this aspect of their service (average 5.9 out of 10). This training course focuses on what a 10 out of 10 rating should look like and teaches you a service that will improve your client's financial well-being by helping them become happier and more fulfilled.
